

KEN BEDPAN WASHER DISINFECTOR 731

Intelligent Disinfection

- CLEAN, LEAN & GREEN

- ✓ Icons on display
- ✓ Total disinfecting system
- ✓ Easy to service access
- ✓ Complies with 15883

BWD 731 has been developed for hospital wards, isolation wards and nursing homes and with its compact design it has a small footprint.

The BWD 731 is easy to operate by touch panel with icons showing all relevant information of the program needed by the operators.

The machine is functional as a free standing, wall hung or undercounter model.

The different bedpan holders are suitable for all types of bedpan. The capacity of BWD731 is one bedpan or two urinal bottles. Most holders will be able to hold various commodes and urine measuring glasses.

A special utensils basket is available for washing kidney bowls, scissors, bowls and other small items.

All data from the BWD 731 are fully exchangeable with common computer systems.

HEALTHCARE

All KEN machines conform to present EU directives, and all the hospital machines have been constructed in accordance with EN ISO 15883.

Advantages:

- Easy to use icons
- 5 standard programs
- Total disinfection guarantee
